PROJECTS

https://github.com/brembo97/YelpCamp
Website that functions as a platform to search, review, comment and look for camping sites. Mobile-oriented, with RESTful routing protocol, and authentication implemented.

https://github.com/brembo97/FrequencyReader
Letter frequency program, that is able to take an encrypted text as an input an using a frequency table returns the decrypted text as the output. The frequencies in the table are a result of the data fed previously to the program.
